Capital & Interest: - The loan is fully amortising, with the customer making same repayment value each month and the loan repaid in full during the term of the loan.

Straight Line Capital: - Interest is charged to the customer's current account quarterly, whilst the customer makes a regular payment to reduce the loan's capital balance each month/quarter. The total quarterly cost to the customer will be higher towards the start of the loan and lower towards the end of the loan.

Interest Only: - The customer's regular monthly repayment only covers interest costs, with the capital balance of the loan paid off in a single bullet payment at the end of the loan term.

In summary eligibility will be assessed based on Responsible Lending Criteria covering:

- Probability of default – assessing the viability of business in the short / medium / long term
- Adverse credit – ensuring credit worthiness / track record of borrower is reviewed
- Affordability – assessing business income vs business expenditure; ensuring adequate coverage, to include a safety “buffer” to absorb one-offs and unforeseen circumstances
- Responsible loan to value assessments - ensure customers are not over committing themselves and fall within credit appetite
- Experience – ensuring the management team have the necessary skills and experience to manage the business successfully in the short / medium / long term
- Business Model – an assessment of the overall business model to ensure a viable going concern

4. Customers with characteristics of vulnerability

The product range is designed for customer with a need to meet funding needs to purchase, re-mortgage, or raise finance against commercial premises, build property for residential or commercial reasons, investing in residential or commercial rental property ,which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

To determine vulnerability, we rely on bank wide processes and functionality (called “Banking My Way”) through which customers can self-declare and indicate what support is required, if any.

The support options available to vulnerable customers are more focused on direct interactions with customer facing staff, e.g., being more patient and does not include options related to offline interactions such as sending important loan documentation more frequently or more in advance of any deadline (e.g., the fixed rate expiring).

Examples of support options / framework in place to achieve good outcomes for vulnerable customers, which includes but not limited to:

- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers
- Flexible policies, where appropriate, to support vulnerable customers
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability

Intermediaries should continue to comply with their obligations to ensure that they treat customers in vulnerable circumstances fairly.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the Products.

5. Our assessment of value
