

FX Costs and Charges Disclosure

January 2025

This disclosure provides information on the total costs and charges applied by NatWest Markets for the following foreign exchange (FX) products:

- Spot FX
- FX Forwards (deliverable and non-deliverable)¹
- FX Options (deliverable and non-deliverable)

Total costs and charges are comprised of any sales margin and/or xVA² applied by NatWest Markets to the transaction.

For the large majority of transactions across our client base, total costs and charges for the above listed products will not exceed 1% of the notional value of the transaction per annum (or, where the transaction is for a shorter duration than 1 year, 1% of the notional value in total), and will only exceed this percentage in exceptional cases (typically where customer specific credit and/or capital charges apply).

If you wish to know pre-trade what the specific costs and charges are for a particular transaction, your NatWest Markets Salesperson can provide these upon request. Costs and charges are also included on trade confirmations for all MiFID Retail and Professional clients³.

For clients with accounts at The Royal Bank of Scotland plc or National Westminster Bank Plc (each an “**Account Bank**”), note that this disclosure only applies to FX transactions you enter into directly with NatWest Markets. It does not apply to FX transactions effected through your Account Bank (including Booked Payments, as defined in your applicable Account Bank terms and conditions). For further information on Booked Payments, please see our Booked Payment FX Terms, available on our website (link below).

We may update this disclosure from time to time by placing a revised version on our website (<https://www.natwest.com/corporates/support/regulatory-information/mifid-2/mifid2-costs-and-charges.html>) and so you should check that website regularly.
